

## How to incorporate short films to activate the 4 skills

May 17

### ➤ Why "short films"?

- (1) Visual images can make a powerful, emotional impact on an audience.
- (2) Sound effects can arouse curiosity and imagination of an audience.
- (3) There are many great films that have strong messages. So teachers can choose an appropriate one from a wide variety of films to meet their context.
- (4) Short films could be used for any language learners, from beginners to advanced students, due to visuals, sounds, and repeatability.

### ➤ Some activities to integrate the 4 skills by using short films

#1. Animation Short Film "The present"
